

PETE KIMPLE

ASSOCIATE, DAYTON AEROSPACE, INC.

PROFILE

Over 40 years of acquisition and project management experience for the US Air Force (USAF) and industry. Successfully managed large and sensitive tasks from inception to close out. Guided complex organizations through times of dynamic change and growth. Skilled planner and change agent, able to identify problems and implement innovative solutions. Colonel, USAF (retired).

PRINCIPAL AREAS OF EXPERTISE

Program Management

Extensive experience in the full range of program and acquisition management disciplines with full cost, schedule, and technical responsibility. Developed and implemented complex programs including structuring innovative acquisition strategies, developing resource requirements, managing source selections, assembling and managing multifunctional teams, designing and implementing innovative management systems, and implementing systems to measure status and progress. In addition, served as primary change agent to reorient organizations to better respond to changing environments, increasing requirements, and decreasing resources.

Proposal Management

Extensive expertise managing and authoring complex industry proposals in response to government requests for proposal (RFPs). Total proposal executive management experience to include integration of multiple inputs from different authors to present an integrated and seamless offering, and ensuring total compliance with all proposal requirements. Proven to lead and author numerous blue-rated proposal volumes, including executive summary, technical, management, integrated master schedules (IMS), and past performance.

International Programs

Broad international program management experience. Structured and implemented complicated aircraft acquisitions with senior levels of foreign governments covering the full range of development, production, and support. Served as the US Government representative on multi-national committees and working groups. Reengineered foreign military sales (FMS) process to better respond to foreign governments' requirements, while minimizing US Government's risk and exposure. Structured complex deals with foreign customers and translated those deals into contractual agreements with US contractors.

Environmental Management

Executive-level experience in environmental management, including analyzing environmental regulations and requirements, and structuring an organization and its business practices to address those requirements. Full profit and loss (P&L) responsibility for waste management locations, including operations, sales, financial, human resources, and safety.

WORK HISTORY

Senior Associate & Associate | Dayton Aerospace, Inc.

2000-present, Dayton, OH

Provide valuable acquisition management and support to government and industry customers across the program life cycle. Experience includes manpower modeling and planning services to a variety of customers including, USAF, US Navy (USN), US Marine Corps (USMC), Department of Homeland Security (DHS), and the US Coast Guard (USCG). Successfully managed multiple proposals for a small business, resulting in contract awards. Served as volume lead for management and technical volumes for multifaceted and highly integrated proposals. Authored master schedules, and accompanying proposal input for large and complex efforts. Transitioned to Associate status in 2011.

Manager and Division President | Waste Management, Inc.

1995-1999, Birmingham, AL, Kingsport, TN, Tupelo, MS, Charlotte, NC

Responsible for full range of operations at Waste Management locations that manage commercial, industrial, and residential waste. Managed hauling, landfill, and recycling operations, and successfully turned around operations at troubled locations through reengineering, process improvement, and cost reduction.

Director of Multi-National Programs | F-16 Program Office

1991-1994, WPAFB, OH

Directed all aspects of the F-16 fighter aircraft acquisition and support for the governments of Israel, Turkey, Belgium, Denmark, Egypt, Taiwan, Thailand, Netherlands, Norway, Venezuela, Korea, Singapore, Portugal, Greece, and Japan. Included airframe, avionics, training, logistics, spare parts, and weapons. Required extensive interface with the upper levels of government and military organizations in the international arena.

Deputy Program Director | Air-to-Surface Program Office

1990-1991, Eglin AFB, FL

Directed daily operations in program office responsible for developing and producing the full range of USAF munitions. Focal point for process improvement and implementation of improved management processes.

Deputy Program Director/Engine Program Manager | B-2 Program Office

1986-1990, WPAFB, OH

Responsible for all aspects of the B-2 program, including improvement of internal procedures, Total Quality Management (TQM) system implementation, and communication with using command enhancements. In addition, responsible for the B-2 engine development and production, which was on time, under cost, and met all technical requirements.

Prior to 1986

- Program Management Inspector, Inspector General, Eglin AFB, FL
- Program Manager, F-111 Electronic Warfare Program, WPAFB, OH
- Student, Education with Industry, Aerojet ElectroSystems, Azusa, CA
- R&D Resource Manager, AF Personnel Center, Randolph AFB, TX
- Program Manager, AWACS Program Office, Hanscom AFB, MA
- Program Manager, Minuteman Program Office, Norton AFB, CA

KEY PROJECTS

- Successfully modeled total manpower requirements for numerous large and complex Department of Defense (DOD) acquisition organizations, including all of Air Force Materiel Command (AFMC).
- Managed two large, critical proposal efforts for a small business, resulting in two significant contract awards.
- Participated on Red and Pink Team reviews for small business which successfully capture a major contract.
